59880 Saint-Saulve, France

ABOUT ME

Generalist engineering student at Centrale Lille, I am interested in technical environments linking design, production and performance.

Curious, rigorous and hands-on, I enjoy practical engineering challenges combining mechanical design, experimentation and continuous improvement. Reliable and team-oriented, I value structured problem-solving and clear communication.

LANGUAGES

- French - Native
- English - Advanced (TOEIC 930/990)
- Spanish - Intermediate

INTERESTS

- Regional basketball referee: pressure management, communication and leadership
- Sports: basketball and running
- DIY and hands-on mechanical projects

CERTIFICATIONS

- MOOC Project Management (École Centrale de Lille)
- Clean driving licence

Seeking a second 5- to 6-month gap-year internship from
March 2027 · Aircraft Design · Manufacturing Engineering ·
Industrial Performance

EDUCATION

École Centrale de Lille, France

2024-2028

Generalist Engineering Degree

Relevant coursework: Aerodynamics & Flow Control – Mechanics – CAD & Manufacturing Processes – Electronics – Advanced Programming & Deep Learning | GPA: 3.7/4

Universitat Politècnica de Catalunya, Spain

Feb.-Jun. 2026

Erasmus exchange semester

Master's-level coursework: Hybrid & Electric Vehicles – Control of Electrical Machines & Power Electronics – Industrial Project.

Lycée Faidherbe, Lille, France

2022-2024

Classes Préparatoires aux Grandes Écoles (MPSI-MP*)

Two-year intensive undergraduate program in Mathematics and Physics preparing for top French engineering school entrance exams.

WORK EXPERIENCE

Toyota Motor Manufacturing France

Sept. 2026-Mar. 2027

Industrial Performance Improvement Intern

Incoming

Expected scope: Kaizen workshops, end-user training and KPI reporting to senior management.

Toyota Motor Manufacturing France, Onnaing

Jul. 2025

TPS Engineering Intern

- Implemented a Total Productive Maintenance (TPM) system and updated maintenance standards and technical drawings.
- Designed control gauges and inspection fixtures for production quality checks.

Alstom Transport, Valenciennes, France

Jan. 2025

Customs Department Intern

Built customs classification decision trees and automated data processing tasks using Python/VBA.

ACADEMIC PROJECTS

Drag Optimisation by Flow Control

Nov. 2025-Jan. 2026

École Centrale de Lille | 12-week competitive challenge | Group Leader

- Minimised aerodynamic drag on 1/25-scale vehicle prototypes using wind-tunnel testing, CFD simulations and CAD iterations.
- Led task allocation, prototype development and weekly progress tracking for an 8-student team.

Acoustic Levitation Device

Sept. 2024-Feb. 2026

École Centrale de Lille in partnership with the CNRS laboratory IEMN

- Designed and developed an acoustic levitation system over 3 academic semesters.
- Managed the coordination, planning and deliverables of an 8-student team across the project.

SKILLS

- CATIA V5 & SolidWorks (intermediate), Fusion 360, Onshape, Star-CCM+ (CFD).
- Python, C, VBA, MATLAB/Simulink.
- Project planning and tracking, task allocation, team coordination.
- TPS, Lean manufacturing, Kaizen, quality management systems.
